Subject index

Amino groups
Voltammetric behaviour of Ni(II) and Co(III) tetraazamacrocylic complexes containing a pendant amino group (Taraszewska et al.) 245
Anthracenes
Resonance Raman measurement of electrochemically generated short-lived 9,10-dihalogenoanthracene cation radicals (Oyama, Okazaki) 557
Aprotic organic solvents
The electrochemistry of noble metal electrodes in aprotic organic solvents containing lithium salts (Aurbach et al.) 225
Azobenzene
A novel photoelectrochemical hybrid "one-way" process observed in the azobenzene system (Liu et al.) 133

Benzylideneacetone
The electrochemical oxidation of (benzylideneacetone)dicarbonyl(phosphine)iron(0) and (benzylideneacetone)dicarbonyl(phosphite)iron(0) complexes in dimethyl formamide (Nogueira et al.) 461
Bubble evolution
Investigation of bubble evolution with a quartz crystal microbalance (Gabrielli et al.) 515

Carbon monoxide
Effects of adsorbed CO on the electrode reactions at a platinum electrode (Kita et al.) 283
In situ Fourier transform infrared reflection absorption spectroscopic studies of the effects of tin on the electrochemical oxidation of carbon monoxide on polycrystalline platinum (Bae et al.) 185
Cation permeability
An electrochemical study of cation permeability into polypyrrole-containing [Fe(CN)$_6$]$^{4-}$ (Breen et al.) 445
Chain reactions
Chain reaction between nitrosobenzene and fluorene induced by cathodic reduction (Mugnier et al.) 529
Chloro-1,2,4-triazoles
Cathodic reduction of *N*-chloro-1,2,4-triazoles (Niyazymbetov et al.) 499
Chromium
Electrochemistry of spinach plastocyanin immobilised electrostatically at a gold electrode modified by [Cr(NH$_3$)$_5$NCS]$^{2+}$ (Datta et al.) 309
Fundamental study of transient electrochemical techniques. Application to the reduction of chromium(II) in fused salts (Lantelme, Cherrat) 409
Chronoamperometry
The short-time chromoamperometric behaviour of an electrode of arbitrary shape (Oldham) 317
Cobalt porphyrin
Electrochemistry of conducting polypyrrole films containing cobalt porphyrin. Part 2. New developments and inclusion of metallic aggregates in the coordination polymer (Bedioui et al.) 257
Cobalt
Reversible electrochromism in polymeric metal phthalocyanine thin films (Li, Guarr) 169
Voltammetric behaviour of Ni(II) and Co(III) tetraazamacrocylic complexes containing a pendant amino group (Taraszewska et al.) 245
Collection efficiency measurements
The ECE–DISP1 problem: general resolution via double channel electrode collection efficiency measurements (Unwin) 103
Coupled chemical reactions
Effect of coupled chemical reactions involving the mediator species on voltammetry at a modified electrode (Jaworski, Cox) 93
Cyclic voltammetry
Global kinetic analysis of cyclic voltammo-

grams at a spherical electrode (Zoski et al.) 1

Cytochrome
Direct electrical communication of cytochrome *c* and cytochrome b_5 at basal plane graphite electrodes modified with lauric acid or laurylamine (Guerrieri et al.) 541
Heterogeneous electron-transfer rate measurements of cytochrome c_3 at mercury electrodes (Sagara et al.) 271

Dichroism
In situ reflection absorption magnetic circular dichroism: methodology and preliminary results (Zhao et al.) 507

Difference in electrolyte concentrations
Liquid junction potential between different solvents. Component due to the difference in electrolyte concentrations and ionic mobilities (Izutsu et al.) 49

Differential capacitance
A new analysis of the differential capacitance of an ideally polarized electrode. Part II. Non-aqueous solvents (Amokrane, Badiali) 377

Dihalogenoanthracene cation radicals
Resonance Raman measurement of electrochemically generated short-lived 9,10-dihalogenoanthracene cation radicals (Oyama, Okazaki) 557

Double channel electrodes
The ECE–DISP1 problem: general resolution via double channel electrode collection efficiency measurements (Unwin) 103

ECE–DISP1 problem
The ECE–DISP1 problem: general resolution via double channel electrode collection efficiency measurements (Unwin) 103

Electrochromism
Reversible electrochromism in polymeric metal phthalocyanine thin films (Li, Guarr) 169

Electrode shape
The short-time chromoamperometric behaviour of an electrode of arbitrary shape (Oldham) 317

Ferrocyanide
An electrochemical study of cation permeability into polypyrrole-containing $[Fe(CN)_6]^{4-}$ (Breen et al.) 445

Fluorene
Chain reaction between nitrosobenzene and fluorene induced by cathodic reduction (Mugnier et al.) 529

Fluoride electrolytes
A voltammetric study of the anodic dissolution of p-Si in fluoride electrolytes (Chazalviel et al.) 533

Fused salts
Fundamental study of transient electrochemical techniques. Application to the reduction of chromium(II) in fused salts (Lantelme, Cherrat) 409

Gibbs energy
Influence of short range interactions on the standard Gibbs energy of adsorption (Sangaranarayanan) 565

Global kinetic analysis
Global kinetic analysis of cyclic voltammograms at a spherical electrode (Zoski et al.) 1

Gold
Electrochemistry of spinach plastocyanin immobilised electrostatically at a gold electrode modified by $[Cr(NH_3)_5NCS]^{2+}$ (Datta et al.) 309

Half-cell capillary
A reference half-cell capillary that improves the high frequency performance of the potentiostat/whole-cell combination (Fletcher, Horne) 297

Halide nucleus formation
A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals. Part 2. The current noise associated with halide nucleus formation in the passive film (Okada) 361

Halide ions
A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals. Part 1. The current noise associated with the adsorption/desorption processes of halide ions on the passive film surface (Okada) 349

Hydrous platinum oxide films
Early stages of growth of hydrous platinum oxide films (Farebrother et al.) 469

Ideally polarized electrodes
A new analysis of the differential capacitance

of an ideally polarized electrode. Part II. Non-aqueous solvents (Amokrane, Badiali) 377

Interfacial potentials
Multi-ion Nernst distribution potential equations: interfacial potentials at equilibrium liquid/liquid and membrane interfaces (Vanýsek, Buck) 19

Interfacial reaction
On the theory of the integer and half-integer integral and derivative linear potential sweep voltammetry for a reversible interfacial reaction (Wenrui Jin et al.) 37

Ionic mobility
Liquid junction potential between different solvents. Component due to the difference in electrolyte concentrations and ionic mobilities (Izutsu et al.) 49

Iron
Quantum correction for the cathodic reaction of iron corrosion in dilute solutions of chloride and sulphate ions (Parlapanski, Panaiotova) 163
Spectroelectrochemical analysis of overlapping redox processes in a tetrametallated iron porphyrin (Araki, Toma) 301
The electrochemical oxidation of (benzylideneacetone)dicarbonyl(phosphine)iron(0) and (benzylideneacetone)dicarbonyl(phosphite)iron(0) complexes in dimethyl formamide (Nogueira et al.) 461

Kinetic analysis
Global kinetic analysis of cyclic voltammograms at a spherical electrode (Zoski et al.) 1

Lauric acid
Direct electrical communication of cytochrome *c* and cytochrome b_5 at basal plane graphite electrodes modified with lauric acid or laurylamine (Guerrieri et al.) 541

Laurylamine
Direct electrical communication of cytochrome *c* and cytochrome b_5 at basal plane graphite electrodes modified with lauric acid or laurylamine (Guerrieri et al.) 541

Linear sweep voltammetry
On the theory of the integer and half-integer integral and derivative linear potential sweep voltammetry for a reversible interfacial reaction (Wenrui Jin et al.) 37

Liquid junction potentials
Liquid junction potential between different solvents. Component due to the difference in electrolyte concentrations and ionic mobilities (Izutsu et al.) 49

Liquid/liquid interfaces
Multi-ion Nernst distribution potential equations: interfacial potentials at equilibrium liquid/liquid and membrane interfaces (Vanýsek, Buck) 19

Lithium
The electrochemistry of noble metal electrodes in aprotic organic solvents containing lithium salts (Aurbach et al.) 225

Mass transfer
The mass transfer rate in electrochemistry (Vieil) 61

Mediator species
Effect of coupled chemical reactions involving the mediator species on voltammetry at a modified electrode (Jaworski, Cox) 93

Membrane interfaces
Multi-ion Nernst distribution potential equations: interfacial potentials at equilibrium liquid/liquid and membrane interfaces (Vanýsek, Buck) 19

Mercury
Heterogeneous electron-transfer rate measurements of cytochrome c_3 at mercury electrodes (Sagara et al.) 271

Methylthiophene
In situ conductivity of poly-(3-methylthiophene) and (3-methylthiophene)$_x$-[Ru(2,2′-bipyridine)$_2$(3-{pyrrol-1-ylmethyl}pyridine)$_2$]$^{2+}$ copolymers (Ochmanska, Pickup) 211
Redox conduction in poly-[Ru(2,2′-bipyridine)$_2$(3-{pyrrol-1-ylmethyl}pyridine)$_2$]-$(ClO_4)_2$ and enhancement of electron transport rates by copolymerization with 3-methylthiophene (Ochmanska, Pickup) 197

Micro-gels
Electrical control of the volume of pH-sensitive micro-gels (Sawai et al.) 399

Minerals
A simple sulfur electrode for aqueous sulfide mineral studies (Edwards et al.) 425

Monolayer surface oxide
Independence of formation and reduction of monolayer surface oxide on Pt from presence of thicker phase-oxide layers (Conway et al.) 435

Multi-level random signal
Computer-assisted voltammetry with a multi-level random signal. Part III. Acquisition of dynamic characteristics of the electrode process coupled with a catalytic chemical reaction (Yamagishi) 125

Nernst distribution
Multi-ion Nernst distribution potential equations: interfacial potentials at equilibrium liquid/liquid and membrane interfaces (Vaný́sek, Buck) 19

Nickel
Reversible electrochromism in polymeric metal phthalocyanine thin films (Li, Guarr) 169
Voltammetric behaviour of Ni(II) and Co(III) tetraazamacrocylic complexes containing a pendant amino group (Taraszewska et al.) 245

Nitrosobenzene
Chain reaction between nitrosobenzene and fluorene induced by cathodic reduction (Mugnier et al.) 529

Noble metal electrodes
The electrochemistry of noble metal electrodes in aprotic organic solvents containing lithium salts (Aurbach et al.) 225

Oxygen
Hexadecafluoro- and octacyano phthalocyanines as electrocatalysts for the reduction of oxygen (Ouyang et al.) 489

Palladium
Electrochemical regeneration of clean and well-ordered Pd(111) (Cali et al.) 523
Reversible electrochromism in polymeric metal phthalocyanine thin films (Li, Guarr) 169

Passive metals
A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals. Part 2. The current noise associated with halide nucleus formation in the passive film (Okada) 361
A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals. Part 1. The current noise associated with the adsorption/desorption processes of halide ions on the passive film surface (Okada) 349

Phosphorus
The electrochemical oxidation of (benzylideneacetone)dicarbonyl(phosphine)iron(0) and (benzylideneacetone)dicarbonyl(phosphite)iron(0) complexes in dimethyl formamide (Nogueira et al.) 461

Photoelectrochemical hybrid "one-way" process
A novel photoelectrochemical hybrid "one-way" process observed in the azobenzene system (Liu et al.) 133

Phthalocyanines
Hexadecafluoro- and octacyano phthalocyanines as electrocatalysts for the reduction of oxygen (Ouyang et al.) 489
Reversible electrochromism in polymeric metal phthalocyanine thin films (Li, Guarr) 169

Pitting corrosion
A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals. Part 2. The current noise associated with halide nucleus formation in the passive film (Okada) 361
A theoretical analysis of the electrochemical noise during the induction period of pitting corrosion in passive metals. Part 1. The current noise associated with the adsorption/desorption processes of halide ions on the passive film surface (Okada) 349

Platinum
Early stages of growth of hydrous platinum oxide films (Farebrother et al.) 469
Effects of adsorbed CO on the electrode reactions at a platinum electrode (Kita et al.) 283
Independence of formation and reduction of monolayer surface oxide on Pt from presence of thicker phase-oxide layers (Conway et al.) 435
In situ Fourier transform infrared reflection absorption spectroscopic studies of the effects of tin on the electrochemical oxidation of carbon monoxide on polycrystalline platinum (Bae et al.) 185

Polypyrrole
An electrochemical study of cation permeability into polypyrrole-containing $[Fe(CN)_6]^{4-}$ (Breen et al.) 445
Electrochemistry of conducting polypyrrole films containing cobalt porphyrin. Part 2. New developments and inclusion of metallic aggregates in the coordination polymer (Bedioui et al.) 257

Potentiostat/whole-cell combination
A reference half-cell capillary that improves the high frequency performance of the potentiostat/whole-cell combination (Fletcher, Horne) 297

Quantum correction
Quantum correction for the cathodic reaction of iron corrosion in dilute solutions of chloride and sulphate ions (Parlapanski, Panaiotova) 163

Quartz crystal microbalance
Investigation of bubble evolution with a quartz crystal microbalance (Gabrielli et al.) 515

Random signal
Computer-assisted voltammetry with a multilevel random signal. Part III. Acquisition of dynamic characteristics of the electrode process coupled with a catalytic chemical reaction (Yamagishi) 125

Redox conduction
Redox conduction in poly-[Ru(2,2′-bipyridine)$_2$(3-{pyrrol-1-ylmethyl}pyridine)$_2$]-$(ClO_4)_2$ and enhancement of electron transport rates by copolymerization with 3-methylthiophene (Ochmanska, Pickup) 197

Reflection absorption magnetic circular dichroism
In situ reflection absorption magnetic circular dichroism: methodology and preliminary results (Zhao et al.) 507

Ruthenium
In situ conductivity of poly-(3-methylthiophene) and (3-methylthiophene)$_x$-[Ru(2,2′-bipyridine)$_2$(3-{pyrrol-1-ylmethyl}pyridine)$_2$]$^{2+}$ copolymers (Ochmanska, Pickup) 211
Redox conduction in poly-[Ru(2,2′-bipyridine)$_2$(3-{pyrrol-1-ylmethyl}pyridine)$_2$]-$(ClO_4)_2$ and enhancement of electron transport rates by copolymerization with 3-methylthiophene (Ochmanska, Pickup) 197

Short range interactions
Influence of short range interactions on the standard Gibbs energy of adsorption (Sangaranarayanan) 565

Short-time chronoamperometric behaviour
The short-time chromoamperometric behaviour of an electrode of arbitrary shape (Oldham) 317

Silicon
A voltammetric study of the anodic dissolution of p-Si in fluoride electrolytes (Chazalviel et al.) 533

Specular X-ray reflection
Specular X-ray reflection for the in-situ study of electrode surfaces (Melendres et al.) 549

Spherical electrode
Global kinetic analysis of cyclic voltammograms at a spherical electrode (Zoski et al.) 1

Spinach plastocyanin
Electrochemistry of spinach plastocyanin immobilised electrostatically at a gold electrode modified by $[Cr(NH_3)_5NCS]^{2+}$ (Datta et al.) 309

Structural changes
Correlation of heterogeneous electron transfer rate with structural change and environmental factors in the two-electron oxidation of $W_2(CO)_8(\mu\text{-SBz})_2^{2-}$ (Fernandes et al.) 145

Sulphur
A simple sulfur electrode for aqueous sulfide mineral studies (Edwards et al.) 425

Surface oxides
Independence of formation and reduction of monolayer surface oxide on Pt from presence of thicker phase-oxide layers (Conway et al.) 435

Tetrametallated iron porphyrin
Spectroelectrochemical analysis of overlapping redox processes in a tetrametallated iron porphyrin (Araki, Toma) 301

Thiolate-bridged tungsten(0) dimer
Correlation of heterogeneous electron transfer rate with structural change and environmental factors in the two-electron oxidation of $W_2(CO)_8(\mu\text{-SBz})_2^{2-}$ (Fernandes et al.) 145

Tin
In situ Fourier transform infrared reflection absorption spectroscopic studies of the effects of tin on the electrochemical oxidation of carbon monoxide on polycrystalline platinum (Bae et al.) 185

Transient electrochemical techniques
Fundamental study of transient electrochemical techniques. Application to the reduction of chromium(II) in fused salts (Lantelme, Cherrat) 409

Triazoles
Cathodic reduction of *N*-chloro-1,2,4-triazoles (Niyazymbetov et al.) 499
Tungsten
Correlation of heterogeneous electron transfer rate with structural change and environmental factors in the two-electron oxidation of $W_2(CO)_8(\mu\text{-SBz})_2^{2-}$ (Fernandes et al.) 145

Voltammetry
Computer-assisted voltammetry with a multilevel random signal. Part III. Acquisition of dynamic characteristics of the electrode process coupled with a catalytic chemical reaction (Yamagishi) 125
Effect of coupled chemical reactions involving the mediator species on voltammetry at a modified electrode (Jaworski, Cox) 93
On the theory of the integer and half-integer integral and derivative linear potential sweep voltammetry for a reversible interfacial reaction (Wenrui Jin et al.) 37
Volume
Electrical control of the volume of pH-sensitive micro-gels (Sawai et al.) 399

X-ray reflection
Specular X-ray reflection for the in-situ study of electrode surfaces (Melendres et al.) 549
